1. Loaned Equipment

Lender agrees to loan Borrower (1) LeveLuk K8 Water Ionizer and (1) Multipure Aquaperform prefilter ("Equipment") under the terms specified in this Agreement

2. Loan Term

The term of this lease shall commence on _____ and shall continue until _____
date *date*

3. Conditions of Use

- Borrower agrees to:
- Proper Use: Operate the Equipment as per the manufacturer's guidelines; run the 6.0pH every morning for 1-2 minutes
- **No Hot Water: Avoid running hot water through the ionizer**
- Care & Maintenance: Keep the Equipment clean and in good condition
- No Unauthorized Modifications: Borrower shall not alter, repair, or attempt to service the Equipment without prior written approval from Lender

4. Liabilities & Damages

Borrower assumes full responsibility for the Equipment while in their possession. If the Equipment is lost, stolen, or damaged, Borrower shall be liable for the full repair or replacement cost as determined by Lender.
Normal wear and tear are expected, but any excessive damage will be charged at cost.

5. Return of Equipment

Borrower agrees to return the Equipment to Embracing the And, LLC in the same condition as received, except for normal wear and tear. Lender reserves the right to inspect the Equipment upon return.

6. Termination & Breach

Lender may terminate this Agreement at any time with written notice if Borrower fails to comply with any terms.
In case of early termination, Borrower must return the Equipment immediately.

7. Entire Agreement

This Agreement constitutes the entire understanding between the parties and supersedes all prior agreement. Any modifications must be made in writing and signed by both parties.

- Drink half your body weight in ounces daily
- Hydrogen molecules typically dissipate after 48 hours
- Start with 8.5pH for 1 week, increase to 9.0pH for another week, increase to 9.5pH for duration of use
- Do not drink 8.5-9.5pH water to take any medications. Drink clean, filtered water with medications or 7.0pH clean hydrogen water. Allow 30 minutes before and after taking medications before returning to the 8.5-9.5pH hydrogen water

Some evidence based water-drinking tips:

- At night, your body repairs itself and casts out toxins. Drink 2-3 cups of ionized hydrogen water first thing in the morning on an empty stomach to flush out the toxins.
- Stop drinking hydrogen water 20 minutes before a meal and wait 60 minutes after a meal. Try not to drink water (or any liquid) with meals. This will aid the digestive process! If you need to drink with meals, drink regular 7.0pH filtered water.

5 Main Types of Kangen Water:

1. **Strong Kangen Water 11.5pH**: Not for drinking. Strong Kangen Water preserves hygiene in your daily life due to its strong cleaning effect. It has dissolving and heat conducting benefits. Usage: food preparation and cleaning.
    a. Food soaking to remove pesticides since it is an oil emulsifier.
    b. Cleaning cutting boards and dishcloths. Good for cleaning oil and tough grime from vents, as well as for general cleaning in the kitchen.
    c. Stain Removal: The extra strength, absorption power, will remove coffee, soy sauce, and oil stains with ease. Also great for getting out stubborn toilet bowl stains.
    d. Dishes: Use less detergent when washing your dishes. Save on water bills, as only one-third to one-fourth of the usual amount of water is adequate for rinsing off detergent.
2. **Kangen Water 8.5-9.5pH**: Perfect for drinking and healthy cooking.
    a. Drinking water. Start with 8.5 for 3-7 days. Upgrade to 9.0 if not detox symptoms present for another 3-7 days. Then remain on 9.5pH for drinking water.
    b. Cooking: Kangen Water draws out the flavor of ingredients so they get tender and juicy. Therefore, food doesn't need as much seasoning, and excess salt can be avoided.
3. **Clean Water 7.0pH**: Free of chlorine, rust and cloudiness. Neutral water is delicious drinking water. Usage: preparing baby food, taking time-delayed medication.
4. **Beauty Water 6.0pH**: Not for drinking. This slightly acidic water is recognized for its astringent effects. It's terrific to use for beauty care. Plants thrive on 6.0pH water.
    a. Face Wash: The astringent properties of Acidic water are effective in toning and firming your skin. Pat the skin and leave to dry. This water is also excellent as a toner after shaving.
5. **Strong Acidic Water 2.5pH**: Not for drinking. This water has cleansing properties. Use Strong Acidic Water to clean kitchen utensils, countertops, and more to prevent cross-contamination. Usages: cleaning and reducing germs, hygiene, and commercial operation.

SEE ***85+ USES*** document for ALL the uses of all pH levels of Kangen Water.
