THE WATER CRISIS NO ONE TALKS ABOUT:

Tap isn't safe. Not all filters fix it. Bottled is worse.

Tap water is no longer fit for human consumption. What's coming out of our faucets today carries carcinogens, hormone disruptors, neurotoxins, and industrial chemicals that were never designed to be inside the human body.

And here's the truth almost no one knows: **your Brita, Berkey, and refrigerator filters do not remove the contaminants linked to cancer, thyroid dysfunction, infertility, metabolic disorders, and neurological damage.** They only remove chlorine and particulate matter – while the real threats slip right through. They don't touch the contaminants linked to disease.

And switching to bottled water isn't a solution either. **The average plastic water bottle contains nearly a quarter million microplastic particles per liter.** These microscopic fragments act as **carcinogens, neurotoxins, and endocrine disruptors,** and they accumulate in your organs, your bloodstream, and even your children's developing bodies. The bottled water industry is a multi-billion dollar empire built on the false illusion of purity. Bottled water is not pure – it's plastic-wrapped poison.

UPGRADE YOUR WATER, UPGRADE YOUR LIFE

Before investing in a unit for your home, you can *experience it first* through a **Water-Share Membership Program.** Enjoy daily access to the same life-changing water so you can feel the difference in your energy, recovery, and hydration for yourself.

Every drop goes through a powerful two-step process:

First, it's purified through Multipure's medical-grade filtration system – removing the toxins, chemicals, and carcinogens the tap leaves behind.

Then, the water is *activated* – infused with pure, therapeutic hydrogen gas your cells immediately recognize and respond to.

Membership Includes:

💧 Two half-gallon glass jugs to take home
💧 Fresh, ionized hydrogen water filled daily

Pricing:

- $60/month
- Pick-up location: Be Well Nutrition [23240 Allen Rd, Woodhaven, MI. 48183]

WHAT'S REALLY IN YOUR WATER?

The Hidden Dangers + The Healing Solution

wellness RISING

WHAT IS REALLY IN YOUR TAP WATER?

SCAN THE QR CODE OR VISIT WWW.EWG.ORG/TAPWATER & ENTER YOUR ZIP CODE

When you enter your ZIP code, you'll get a clear report of what's actually coming out of your faucet every single day. To give you a sense of what many communities are facing, here's one example. In ZIP code 48183, the report shows 9 contaminants - and **5 of them are present at levels higher than what the EWG considers safe**. Each one of those has **cancer** listed as a potential effect.

Once you see information like this, it's almost impossible to unsee. And when you realize we're bathing in this water, cooking with it, and drinking it every day...it starts to feel like our tap water has turned into a **liquid cocktail of carcinogenic risk.** No wonder chronic disease and cancer rates keep climbing.

THE SOLUTION?

We need water that's not just free of contaminants...we need water that's actually therapeutic. That supports our biology and helps the body do what is was designed to do: heal, detox, and thrive. That brings us to the two critical steps: filtration and activation.

Step 1: We add a quality filter to remove the contaminants - making tap water safe to drink.

Step 2: We activate the water. We infuse it with dissolved molecular hydrogen gas, transforming ordinary water into a healing agent that speaks the language of your cells.

Step 1: Add the Gold Standard in Water Filtration Multipure Aquaperform®

When it comes to protecting your family from what's actually in your water, not all filters are created equal. Multipure® is in a class of its own—with more NSF certifications than any other brand on the market. It's not hype. It's science.

🛡️ Why Choose Aquaperform®?

- **Removes 83+ known contaminants (including PFAS "forever chemicals," bacteria, viruses, pharmaceuticals, disinfection byproducts, pesticides, heavy metals—even arsenic)**
- **Backed by science, not just marketing**
  ✅ NSF Certified under Standards 42, 53, 401 and P231
- **#1 Rated Water Filter in Consumer Reports, year after year**
- **Made in the USA with patented solid carbon block technology**
- **Simple install to the cold-water inlet under your sink, or in-line before your hydrogen water unit (Step 2)**
- **Affordable protection: Only $695 - plus receive 5% off with code [436558]**

Scan QR Code below to purchase your Multipure Aquaperform® and filter your tap water at the source:

Step 2: Add Molecular Hydrogen Gas (H_2)

THIS IS WHERE WATER BECOMES THERAPUETIC

This isn't just another wellness trend. There are now **thousands of peer-reviewed, published studies** across **170+ disease models, exploring how molecular hydrogen (H_2)** interacts with the human body on a cellular level - what's being discovered is nothing short of groundbreaking in healing and prevention.

🔬 **Proven to Support:**

- ⚡ **Reduced oxidative stress** - the root of aging and nearly every chronic illness
- 🔥 **Lower inflammation** - a major driver behind pain, fatigue, and disease
- 🧬 **Protection against cellular damage and DNA stress**
- 🔋 **Increased energy and mitochondrial function**
- 🧠 **Sharper mental clarity** and faster post-workout recovery

🛡️ **Prevention is the Best Cure**

Whether you're trying to heal, prevent, or optimize... this is the piece almost everyone is missing. Disease doesn't begin with a diagnosis - it starts silently, with cellular dysfunction. And by the time symptoms show up, the damage is often already done. **This is where Hydrogen Water changes everything.** It doesn't mask symptoms; it addresses the root cause - oxidative stress, inflammation and cellular damage.

Don't wait for a diagnosis to wake you up. Take action now — because true healing starts at the source, deep within your cells, long before illness ever has a name.
