HYDROGEN WATER

WATER-SHARE-MEMBERSHIP

PROGRAM

CONGRATULATIONS ON UPGRADING YOUR WATER TO HYDROGEN WATER!

HOW TO USE + MONTHLY RENEWAL

Some basic conversions:
1/2 gallon = 64oz
1 gallon = 128oz
1 liter = 34oz
5 liters = 169oz
5 liters = 1.3 gallons

Drink half your body weight in ounces daily.

Weight:_____/2=_____oz/day.

- Bring the glass jugs back each day for your daily refill.

Note: The healing benefits of this water come from the hydrogen gas that has been dissolved into it. The hydrogen molecules have dissipated after 48 hours. That is why you should refill minimally every other day.

You may feel some detox symptoms when you start drinking Hydrogen Water; therefore, follow this titration schedule:

- Start with 8.5pH for 1 week. **Drink 8.5pH until:_____**

- Upgrade to 9.0pH for another week. **Drink 9.0pH until:_____**
- Remain on 9.5pH for duration of Membership.

Detox symptoms could include headache, change in bowel movements, dry mouth, nauseousness, or skin rash, to name a few. Be sure these do not exist before going up to next pH level.

- Do not drink this water with any time-delayed prescription medications. Drink clean, filtered water with meds. Allow 45 minutes after taking meds before returning to Hydrogen Water.

Some evidence based water-drinking tips:

- At night your body repairs itself & casts out toxins. Try drinking 2-3 cups of Hydrogen Water first thing in the morning on an empty stomach to flush out the toxins.
- To help aid your digestive system and keep digestive enzymes high while you are eating, try to not drink any liquid while eating meals. Wait 45-60 minutes after a meal to resume drinking Hydrogen Water. If you "need" to drink with meals, drink regular filtered water (not Hydrogen Water.)

Your membership renewal will be due on the _____ of every month. You will receive a PayPal invoice today and each month on this date.

There are a couple ways to eliminate your water share membership renewal fee:

- **Refer someone. You will receive $50 after their *second* paid month.**
- **You will receive $50, if you attend our monthly Water Education Workshop.**

The next one will be: _____.
