BUSINESS OPPORTUNITY OVERVIEW

What If One Simple Shift Added $1,000-$2,500/Month to Your Business?

By monetizing a daily habit your clients already have.

What Smart Businesses Are Starting to Do

They're introducing a **Water Share Membership Program** inside their business. Members pay a simple monthly membership fee to **rent a glass jug or 5-liter bag,** giving them convenient access to fresh, hydrogen-infused water for regular pickup.

Over time, many of those same clients choose to purchase their own system - which creates an additional stream of **commission-based income.**

REVENUE POTENTIAL

What This Could Look Like

INCOME STREAM 1
Recurring Monthly Revenue
Customers pay $60/month for daily hydrogen water refills. You earn a commission on every active membership — ***every single month, on autopilot.***

INCOME STREAM 2
Unit Sale Commissions
When loyal refill customers get tired of driving in every day, they buy a Hydrogen Water unit for their home — ***and you earn a commission on that sale.***

Business Type	Recurring Revenue *Earned* EVERY SINGLE MONTH	# of Customers Who Bought a Home Unit	Your Commission *When They Bought*
